## **Lunar Eclipse / Full Moon in Aquarius**

August 7th, 2017 (at 2:11 pm EDT - 15 deg 25')

Lunar eclipses are highly charged Full Moon periods, and this one "opens the portal" for a period of transformation between now and the Total Solar Eclipse on August 21st, 2017. This lunation is charged with creative potential; with the Aquarius Moon in a positive aspect to Jupiter in Libra, it opens us to an expanded vision of what we can create in our lives.

The Full Moon always symbolizes polarity; This Full Moon is in the sign of Aquarius, opposite the Sun in Leo. This lunation is symbolic of individual needs [Leo] vs. collective ones [Aquarius]; attachment vs. detachment; individuality vs. group identity. How can you harness your creative leadership to make an impact in your chosen sphere?

Which house is affected in your personal birth chart? If you're not sure, read the forecasts for both your Sun Sign and Rising sign for a more detailed forecast.

The TOTAL SOLAR ECLIPSE on August 21st will be in Leo at 28 deg 52'; when you order any reports or consultations before August 19th, I will let you know what the themes of this highly significant eclipse will mean to you.

What changes are you ready to embrace moving forward?

### **ARIES**

The Aquarius Moon in your eleventh house may signify a time when friends are more emotionally important to you than usual, and would be a good time to tell them how much they mean to you. This is also a good time to examine your goals, and ask yourself if they are truly relevant to your life now, or if they are outmoded desires you just haven't been able to let go of. Great energy for networking and focusing on group projects in general.

ELEVENTH HOUSE: group activities, networking, friends, hopes and wishes, earned income, goals, community.

### **TAURUS**

The Aquarius Moon in your tenth house may find you feeling tested as far as professional or business matters are concerned; there exists a tendency now to

blur the line between professional and personal relationships. You could make your private life public unknowingly, so be careful how much you say to whom! You are more responsive to the general mood of the professional environment, and can excel in sales or public relations work now.

TENTH HOUSE: authority figures, parents, career, honors, business, public acclaim, role in society.

#### GEMINI

The Aquarius Moon is in your ninth house, where you may want to escape the everyday grind. You could be feeling restless, but you don't need to get out of town to get away. Try exploring something new... something that's always intrigued you, but you haven't made time for. Right now, it could be a very practical thing to do, since your spirit will feel renewed, and you won't feel so restricted if you take time to explore the limitless possibilities that exist for you now.

NINTH HOUSE: travel, spiritual or higher learning, teaching, philosophy, legal activities, publishing.

#### CANCER

The Aquarius Moon in your eighth house could bring an intensity to your emotional experiences, and you may attract as well as be attracted to people that stir you emotionally. There could be a tendency for possessiveness with this aspect, but if you focus on connecting emotionally, then you can relax and trust. Merging, sharing, spiritual and metaphysical matters are highlighted for you today.

EIGHTH HOUSE: joint resources, financial dealings with others, legacies, inheritance; merging, death, sex, surgery, subconscious complexes.

#### LEO

The Aquarius Moon in your seventh house can focus you on your most personal relationships; a great night for spending time with the one you love. The seventh house also represents opponents, and if you are to engage in conflict now, it may be more difficult to maintain objectivity or detachment. Think before you say anything... and make sure to reflect if someone rubs you the wrong way! Harmony, cooperation and balance are important for you today.

SEVENTH HOUSE: personal and business partnerships, learning cooperation, teamwork; marriage.

#### VIRGO

The Aquarius Moon in your sixth house can find you putting emotional considerations aside in favor of immediate necessities. The sixth house rules issues of health and service, and would be a good time to take steps in a positive direction regarding these matters. Don't get caught up playing the martyr or repressing your emotions, since it could leave you hypercritical or feeling victimized. Details, organization and daily tasks are highlighted today. SIXTH HOUSE: health, habits, routines, jobs and employment, diet, pets, service to others.

#### LIBRA

The Aquarius Moon in your fifth house will find you projecting your emotions now more than usual; this is a time when you really need to be yourself, and allow yourself to experience your emotions with greater depth. This could sometimes translate to overprotectiveness in your desire to take care of others. Tap into the creative energies today; the fifth house rules romance as well as creativity and recreation... so make sure you have some fun! FIFTH HOUSE: shine! romance, arts, entertainment, creativity, children, investments, gambling, fun.

#### SCORPIO

The Aquarius Moon in your fourth house brings a tendency to escape to your own little world; you need to get away from public life, and home is probably where you want to be. This is a good time to look at your emotional attitudes toward the world in general; a good time to look at how past conditioning controls your life at this time. Home, meditation, finishing a matter, real estate, decorating, family and parents are also matters ruled by the fourth house, and could be especially significant today. FOURTH HOUSE: home life, parents, remodeling, relocating, clearing old business, plans for the future.

#### SAGITTARIUS

The Aquarius Moon in your third house indicates that your communications with others could be very subjective, where it may be difficult to keep your objectivity because of personal feelings. Try not to take your environment for granted to the point where you respond automatically; you could really put your foot in your mouth without realizing it! On the plus side, you can communicate those things that carry great importance for you with deep emotion and feeling. THIRD HOUSE: siblings and neighbors, communications, writing, speaking, everyday transportation, written tests, study, short trips.

## CAPRICORN

The Aquarius Moon in your second house may find you more emotionally identified with your values than usual, or even strongly attached to possessions and material objects. Remember, it's not the object that's so important to you but the emotional content it represents. The second house also represents what you truly value, and you can now assess what is truly essential to who you are and what is not.

SECOND HOUSE: values, personal income, finances, resources, security issues, needs.

## AQUARIUS

The Aquarius Moon in your first house finds you needing to relate to friends and loved ones, and you are in tune with the feelings of those around you. You can be emotionally very giving with this transit, but you can also be emotionally demanding as well, especially if you feel you've been giving a lot. Best now to give without expecting return. New beginnings, energy and self-assertion are highlighted for you today.

FIRST HOUSE: Beginnings, the personality, the physical body, personal affairs and ventures.

## PISCES

The Aquarius Moon in your twelfth house may find you more sensitive than usual, especially regarding your emotional life. The danger is if you try to hide unconscious attitudes from yourself, by suppressing them they tend to control you. You are in touch with your deepest self, and memories, dreams and parallel realities may be colliding within you. Hidden matters come to light, and silent observation can help you more now than ever. A time to go within before the Moon enters your sign.

TWELFTH HOUSE: solitude, introspection, research and investigation, therapy, the subconscious realm, psychic abilities, dreams.
